

ChairSolutions

Furniture Catalogue

Volume 5

Welcome.

As the largest office chair and seating manufacturer in Australasia, we're proud of our office chairs and seating solutions in this catalogue.

And as Directors, we'd like to say a big thanks to our dealer network across Australia and New Zealand. Our close relationships with you all have helped us continue to deliver exceptional products this past year, alongside the high levels of service expected of Australian manufacturing.

The feedback and knowledge shared while working together has had tangible results: we've gained ISO 9001 and 14001 accreditations, and a GECA certification in sustainability and recycling initiatives. We've also achieved upgraded AFRDI certification for durability testing, meeting AUS/NZ standards with load ratings of 135kg and 160kg across much of our task chair range.

As a result, ChairSolutions has extended its factory warranties to 15 years on these high-quality, sustainable, recyclable, Australian-made products.

Sustainability has always been a big part of how we've operated as a business over the past several decades – it's not new for us. We're always working on new ways to minimise waste across the lifecycle of every chair we produce.

We would also like to thank our dedicated and skilled staff. Without our teams of specialised cutters and sewers, upholsterers and assemblers here in Australia, we could not produce local Australian-made seating. Many have been with us for 10-30 years.

Finally, we want to acknowledge the memory of John Dawson, our group co-founder, mentor and business partner (and Aaron and Luke's dad) whom we lost in 2021. His legacy continues in what we do each day.

We continue to invest in Australian manufacturing, with plastic injection moulding here in Australia, Australian foams and the latest technology Pathfinder (Australian-made cutting machine) to keep pace with customisation and increased volumes.

We look forward to working with you all into the future.

ChairSolutions

We place great importance on local and community services, the environment, and the positive relationships with our network of businesses. It is our mission to supply adaptable, sustainable and affordable solutions to local Australasian organisations.

CS Brand

ChairSolutions produces best-in-class seating to meet the needs of the modern Australian workplace. We have been manufacturing executive, task, visitor, and soft seating solutions at our five factories across Australia and New Zealand for over 20 and 40 years, respectively. Sustainability and long-term value have always been core to our approach. This commitment is reflected in our rigorous certifications, our newly introduced 15-year durability warranties for many products, and our **Take Back** recycling program.

ChairSolutions' adaptable products enable a consistent aesthetic throughout any fit-out. Clients can choose from a near-endless range of fabric options, including healthcare-grade treated textiles - or even supply their own materials.

We take pride in the support we offer our dealers and their clients. By leveraging these close relationships, we've delivered exceptional fit-out solutions across Australia and New Zealand - while maintaining competitive pricing.

Product range

We provide Australian Made products for the workplace, education, healthcare, hospitality and government which are aesthetically pleasing and ergonomically support the body. CS products meet independent certification including FSC, AFRDI, GECA, BIFMA, CATAS, and now ISO 9001 and 14001 accreditation.

Distribution

We're locally focused, with the capability to deliver throughout Australia and New Zealand. All service, relationships, and products are handled personally - assembled and upholstered by your local ChairSolutions factory.

NSW | QLD | VIC | WA | NZ

Proudly and authentically Australian Made

‘World-class seating solutions, made right here in Australia’. That’s been the ChairSolutions goal since 2002, and we’re staying true to it to this day.

Our long history of keeping it local has earned our products the ‘**Australian Made**’ logo - the ultimate mark of Aussie authenticity. It’s a core part of our commitment to manufacturing the highest-quality local products.

You’ll find this commitment in our product design and materials - like our in-house upholstery and our own **CS-foam**. You’ll find it in our skilled artisans, who carefully craft over 220,000 products each year.

And you’ll find it in our four factories across Australia, each providing tailored solutions to their local markets and supporting their local communities.

Enhanced by a select handful of globally sourced components, our world-class products represent a whole new standard in local manufacturing. **Australian Made, with Aussie pride.**

AUSTRALIAN MADE

We support Australian Made.

Our Green Story

1985

Our journey began.
Sustainability has been a core part of our values from the very beginning.

2007

We started collating information from suppliers and changing our manufacturing processes to reach GECA environmental certification.

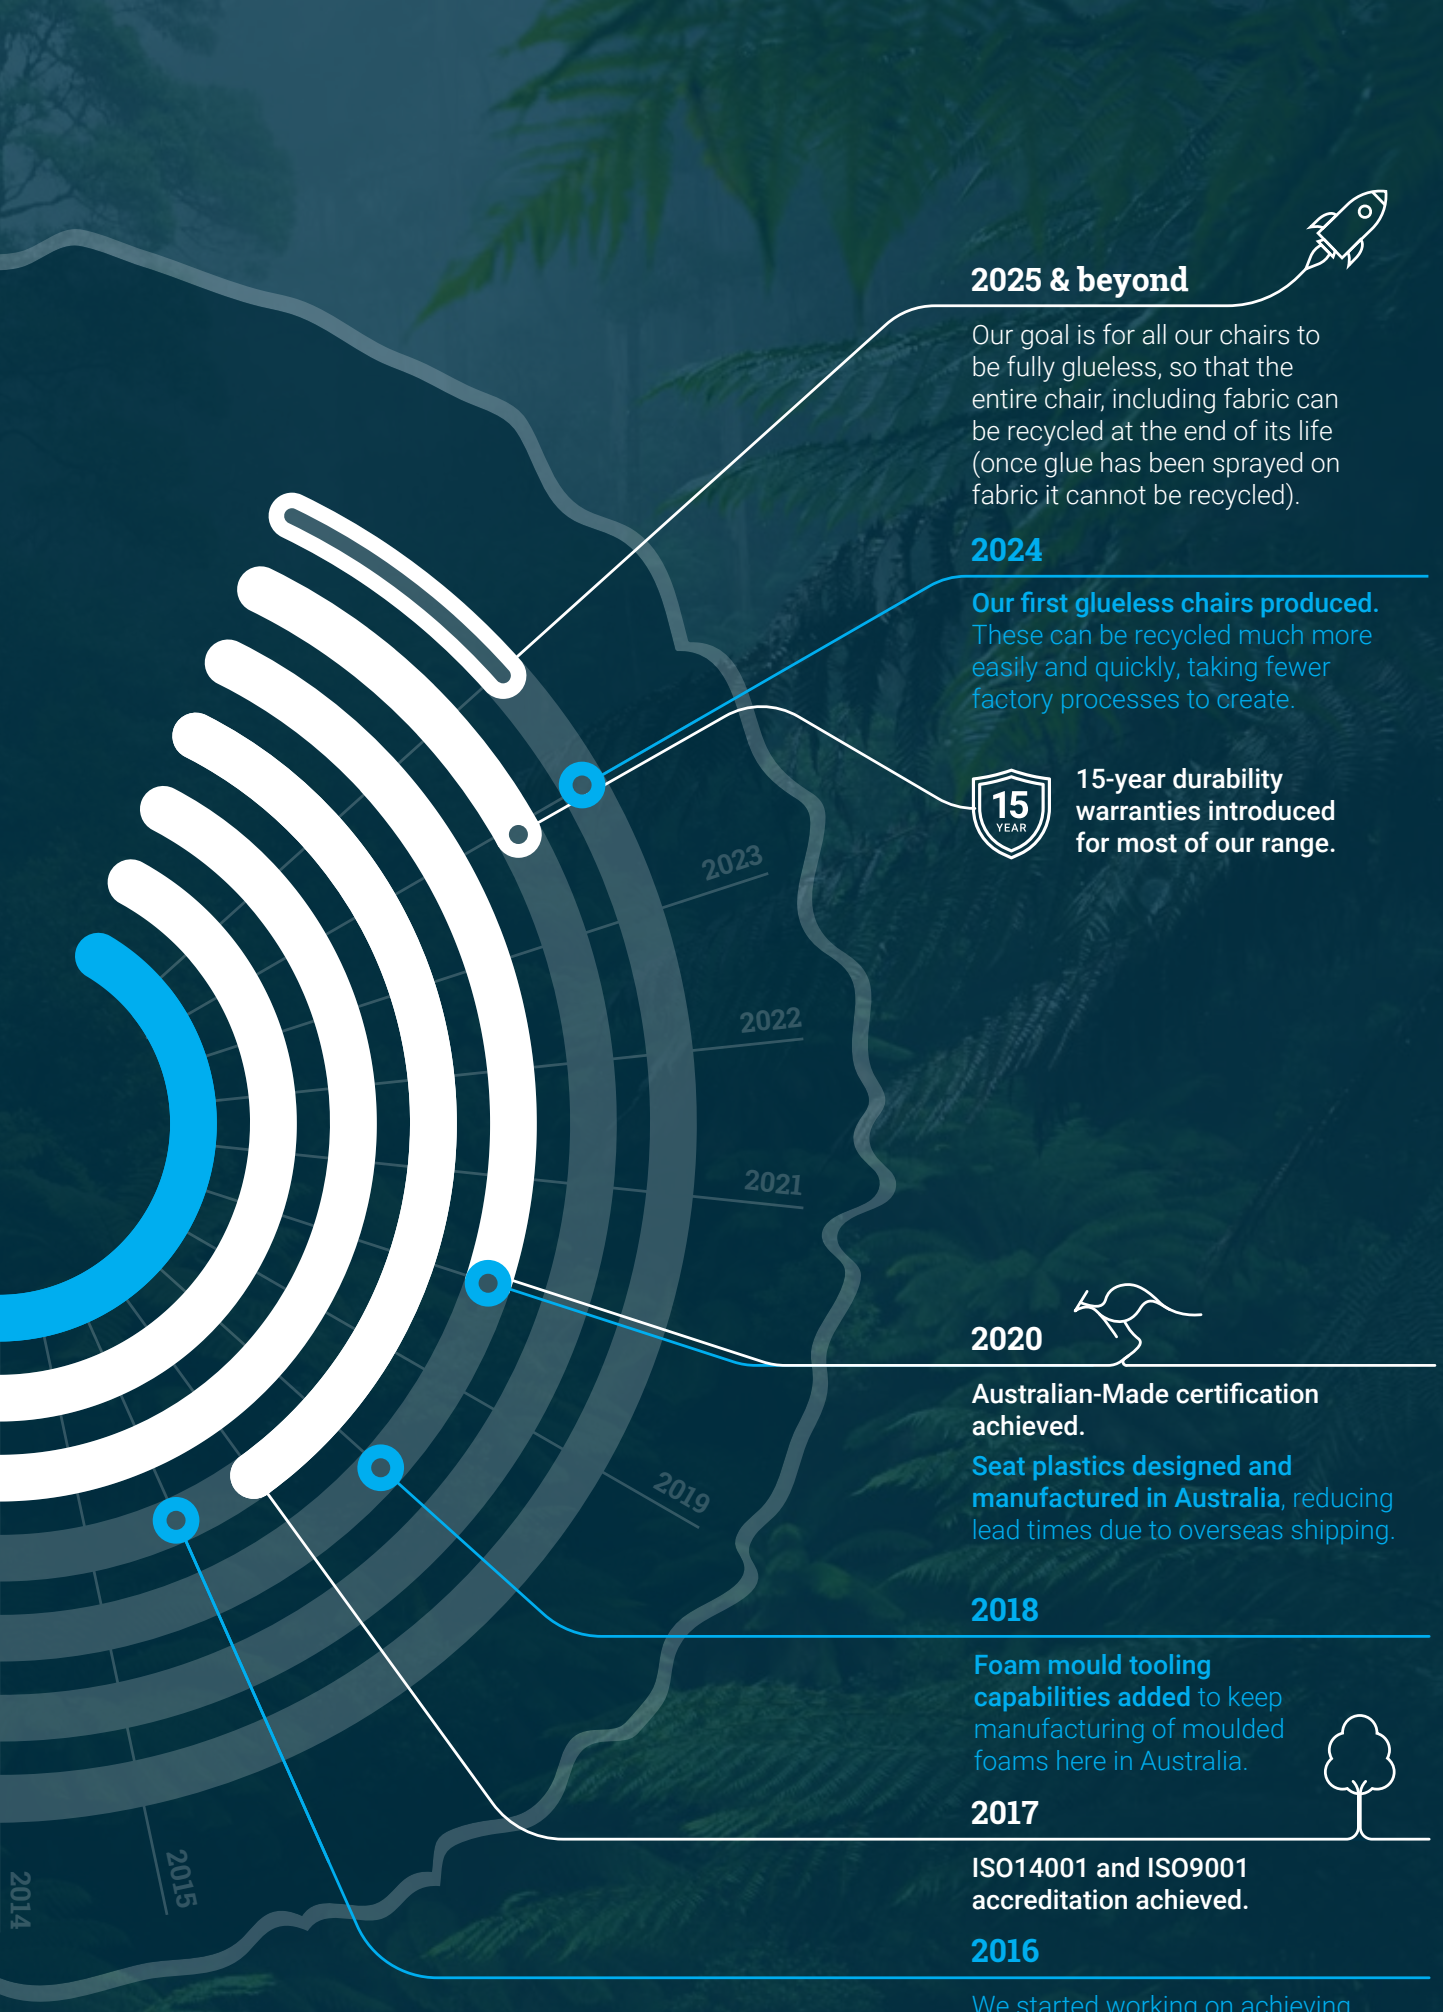

2008

GECA certification achieved.
This included switching from solvent to non-toxic water-based glues, and sustainably harvested wood.

2013

We passed testing for 160kg chair mechanisms after six months of development. Our heavy-duty chairs last much longer, lowering their impact on the environment.

AFRDI certification of Australian quality standards achieved.

2025 & beyond

Our goal is for all our chairs to be fully glueless, so that the entire chair, including fabric can be recycled at the end of its life (once glue has been sprayed on fabric it cannot be recycled).

2024

Our first glueless chairs produced. These can be recycled much more easily and quickly, taking fewer factory processes to create.

15-year durability warranties introduced for most of our range.

2020

Australian-Made certification achieved.

Seat plastics designed and manufactured in Australia, reducing lead times due to overseas shipping.

2018

Foam mould tooling capabilities added to keep manufacturing of moulded foams here in Australia.

2017

ISO14001 and ISO9001 accreditation achieved.

2016

We started working on achieving ISO14001 and ISO9001 accreditation.

CS Black Fabric

Our stock CS Black house fabric is water-repellent, wipeable, and durable (tested to 50,000 Martindale rubs). It's designed to help repel liquids and block stains without altering the look and feel of the fabric, allowing the surface to be wiped clean before any mess sinks in.

WATER RESISTANT

ANTI MICROBIAL

TWO-WAY STRETCH

50,000 MARTINDALE RUBS

WIPEABLE

Custom Upholstery

Whether it's outfitting your workspace with custom-designed seating solutions or re-upholstering select items, our skilled upholstery team is here to bring your vision to life.

ChairSolutions offers a wide range of high-quality fabrics and materials, allowing you to customise your furniture to match your aesthetic.

Re-upholstering existing furniture is a smart, cost-effective way to give your office a fresh, new look without the expense of buying new pieces.*

OVER 1000 COMBINATIONS
With over 1000 combinations on offer, we empower resellers to offer truly tailored solutions.

HANDCRAFTED
We handcraft exceptional ergonomic seating for commercial spaces.

Features

Australian Made
These products are proudly made throughout Australia from local and imported components.

CSXpress
These products are dispatched same day with next day delivery, within metro areas.

Comfort Duo
These products provide two independent zones of varying support for health and well-being.

Warranty
Replace or repair on all chair components.*

Max User ratings
ChairSolutions recommends these products for users up to its max user weight.**

Any Fabric
Chair is upholstered in your choice of any fabric, leather, vinyl, healthcare treated and eco-friendly fabric.

Strength + Durability Certifications

Furntech - AFRDI
As Australasia's leading furniture certification body, AFRDI operates a number of certification schemes which certify different aspects of a product. As a specifier or customer, you may be offered products which feature different registered logos, so it is important to understand what they signify. It shows our products have been rigorously tested to meet the highest standards of safety, longevity, and sustainability.

AFRDI Level 6
Certified Level 6 office chairs will meet most commercial needs. Level 6 chairs should be able to withstand extremely severe conditions of use.

AFRDI 142-Rated Load 160kg/135kg
Is designed to cater for people heavier than 110kg.

Multi-shift – For multiple shift operation i.e. significantly greater than 40hrs use per week.

Single-shift – For single 8 hour shift operations. i.e. approximately 40hrs use per week.

CATAS carries out tests to assess the mechanical safety, resistance and the durability of a finished product. The tests are performed in accordance with national, European and international technical standards.

BIFMA develops, maintains, and publishes safety and performance standards for furniture products.

Environmental Certifications

GECA
We offer a range of GECA certified products. Australia's trusted eco-label for planet and people. GECA certified products are healthier, safer, and better for the environment.

We only use wood sustainably harvested from FSC-certified forests.

GREENGUARD certification means our products are proven to meet strict standards for low chemical emissions.

Environmental Standards

ISO 14001
We're thrilled to be certified under the world-class ISO 14001 standard. This is a strong recognition of our equally strong commitment to minimising our environmental impact. It's our way of proactively working towards a sustainable future for our business, and the planet.

ISO 9001
We are also part of the million-strong collective of businesses who have achieved the ISO 9001 standard of excellence. As the world's quality management system of choice, ISO 9001 is a mark of our second-to-none dedication to leadership, efficiency, quality and resilience.

Our Mechanisms

2/3 Lever: Consists of seat height and back tilt. 3 Lever includes seat tilt adjustment.

3 Lever Heavy Duty: Additional reinforcement for larger users.

3 Lever Super Heavy Duty: Significantly reinforced to comfortably pass AFRDI 142 Rated Load 160kg Multiple Shift.

Synchronised: Seat and back tilt in a synchronised movement.

Asynchronised: Seat and back tilt independently.

Swivel / Knee Tilt: Fixed back and seat with tilt mechanism.

Ratchet: This system has a built-in notched track. The backrest lifts up step-by-step; it "clicks" into place at different heights.

Manual: Back height is adjusted manually using a turn knob under the backrest.

*Excludes fabric. ** These products are supported by our warranty policy.

COMFORTDUO
Seat Cushion

Recommended by Medical Practitioners – featuring leading comfort and support that is essential for workspace health and well-being.

Providing two zones of varying support.

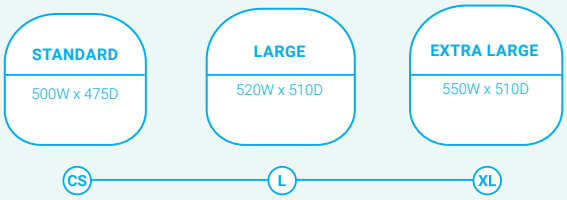

Rear (Soft): Softer foam that allows the sitting bones to sink into the foam, thereby preventing slumping and promoting the correct ergonomic posture.

Front (Firm): Firmer foam which provides additional support for the legs, improving blood and oxygen flow and providing correct leg posture.

Optional Seat Sizes

Comfort Duo seat sizes allow every user to find their right fit.

Apollo

Embodying Italian design with a flat-sloped seat and squared back, the Apollo Chair Range delivers both style and ergonomic support. The Apollo Task Chair offers precise, adjustable comfort with its 3-lever ratchet mechanism, allowing users to fine-tune seat and back positioning. For a more dynamic sitting experience, the Apollo Executive Chair features a synchronised mechanism, encouraging natural movement and reducing strain on joints and muscles during extended periods of seated work.

15 YEAR WARRANTY | 135kg MAX USER | ANY FABRIC | OPTIONAL

SOFT SEATING

Spring

Transform your space with our versatile and stylish lounge seating, proudly Australian designed and manufactured. Featuring a waterfall-style backrest, the Spring Range consists of two modules: a straight lounge with a back, and a quarter-circle lounge with a back, that can be effortlessly arranged. The curve with the back forms ¼ of a circle, allowing for creative layouts. While not inherently modular, it integrates seamlessly with the Flow Range to create unique and functional environments. Ideal for breakout areas, libraries, educational settings, and training spaces.

5 YEAR WARRANTY

SOFT SEATING

Markets we serve

Corporate + Government Office

From boardroom to breakout room, our chairs bring quality and style to workplaces all over Australia and New Zealand.

Hotel + Hospitality

Relax in style with our hotel and hospitality ranges. Our soft and visitor seating solutions have you covered.

Education

Whether drafting or lab stools, classroom chairs or study halls, we supply everything needed for education settings.

Healthcare

Our chairs are designed to be hygienic and easy to wipe clean, for use in a wide range of clinical, aged care and health care settings.

Replacing Responsibly

At ChairSolutions, our chairs are built to last. Many of our models are designed to be re-covered or refurbished, to help them go the distance. But even so, all chairs will some day need to be replaced. And when that time comes, we want to help make sure it's done responsibly.

That's why we started our **Take Back Program.** This simple program has been in place ever since our GECA certification in 2008, and it's all part of our commitment to sustainability.

How does the Take Back Program work?

When a ChairSolutions chair is finally on its last legs, you can return it to us. We'll carefully dismantle it, then sort its parts for recycling or proper disposal. Depending on the specific chair model and components, the recycling process may vary.

What does the program cost?

This policy is in place for the planet, not for profit. So while there are some unavoidable charges attached, we do our best to keep the cost to you as low as possible.

For more information about the Take Back Program, process, and pricing, please contact us.
