ELEVAR NEW VISION (ENV)
technical specifications

ELEVAR NEW VISION (ENV)

Workstation

Introducing the next generation in Ergonomic Desking, the ENV system. Available in 2-leg, 3-leg, 4-leg back-to-back, and 4-leg meeting table systems, the ENV takes ergonomics into consideration from the moment you begin assembly. Equipped with the latest in mounting technology and designed by Elevar and their European partners, ENV brings a faster, quieter, more enjoyable assembly and sit-to-stand experience that must be seen to be believed.

The latest edition, the ENV3 3-leg workstation, is the first fast-assembly 3-leg workstation in the world to be released for commercial use, and is capable of 90°, 120°, and 180° configurations all from one frame.

ENV Workstations by Elevar - Raising the Standard.

Product Type	3-stage electric workstation - 1 motor per leg
Certifications	AFRDI Blue Tick certified AS/NZS 4442 standards compliant
