XLOCK30
RFID Mifare or HID Prox

- XLOCK 30 is a compact, RFID lock mechanism.
- It is invisibly mounted behind the door for a clean aesthetic
- It is administered via a Management / Programming Card and Master Card system.
- Best used for projects where lockers are allocated.
- Multiple user cards can be set for each locker if required.

Administration – Management / Programming Card

Master Cards can be programmed

Card Unlock Access	RFID – Mifare Classic, Mifare Desfire, includes compatibility with Transport Cards or HID Proxy (needs to be specified)
Phone Unlock Access	NOT AVAILABLE
