Rounded Arc Bases

The Arc Table Base range is engineered for modern hospitality spaces that require a softer, more fluid architectural aesthetic without compromising on stability. Defined by its signature radiused base plate, this collection provides a sophisticated alternative to traditional square frames, helping to eliminate sharp corners in commercial dining and breakout office zones. The range is highly scalable bases are specifically designed to support expansive rectangular or communal tables up to 1500mm in length. Precision-crafted from high-grade mild steel and finished in durable powder coats like Matt Black and White, the Rounded Arc series ensures a clean, contemporary look that maximises under-table clearance and guest comfort.
