Bologna and 2 Way

The Bologna table base collection brings a touch of classic European charm to modern commercial spaces, offering a sophisticated and ornate silhouette. Featuring a detailed, vintage-inspired frame with elegant curved legs, this range is ideal for creating a traditional bistro feel in cafés, wineries, or Parisian-style outdoor dining areas. The collection includes the standard four-star base for square or round tops, as well as the Bologna 2 Way trestle-style base, which is specifically designed to provide stable support for larger rectangular communal tables. With its blend of decorative flair and commercial-grade strength, the Bologna series is a perfect choice for venues seeking a refined, heritage-inspired aesthetic.
