Disc Bases

The Disc Table Base Range is the cornerstone of our foundational collection, engineered to provide a low-profile, weighted anchor that maximises legroom and floor space in high-density dining and office areas. Crafted from a high-performance blend of mild and stainless steel, these circular bases offer exceptional structural stability for a wide variety of top dimensions, from intimate 700mm rounds to expansive 1500mm communal surfaces in the XL series. With multiple column diameters and base weights designed to prevent tipping, the Disc series delivers a clean, geometric aesthetic that integrates seamlessly into any modern hospitality or corporate breakout environment.
