Lisboa Bases

The Lisboa table base collection is the ultimate heavy-duty solution for high-traffic indoor hospitality environments, offering unparalleled stability and a clean, industrial aesthetic. Engineered from robust mild steel and finished in a resilient powder coat, this range is specifically designed to support substantial table tops, with a load capacity of up to 50kg. The collection features a variety of configurations to suit any floor plan, including the classic four-star bases for square or round tops. With its minimalist profile and reinforced structure, the Lisboa series provides a dependable, professional foundation for busy restaurants, pubs, and bistros where durability and functional design are the top priorities.
