Primavera

The Primavera outdoor side chair and stools combine a soft, organic aesthetic with the enduring strength of a high-grade aluminium frame. Defined by its elegant vertical slats and gently rounded corners, this range offers a fresh, breezy look that invites relaxation in any alfresco dining area, garden terrace, or poolside lounge. Each piece is finished in a premium, matt powder coat that is specifically designed to resist the elements while maintaining its crisp, clean appearance. Featuring reinforced welds and a heavy-duty 2mm gauge leg tube, the Primavera collection delivers exceptional commercial-grade durability without sacrificing its lightweight, stackable convenience, making it a standout choice for both modern hospitality venues and stylish residential spaces.
